

PRIVATE COFFEE LESSONS

4 HRS

10AM-02PM

/

01PM-05PM

ESPRESSO MAKING

Learn all that you need about the basic building block of most coffees on the menu, espresso. From sensory and appreciation skills to extraction theories and hands-on techniques, you can be sure to take something useful home as a beginner or a professional.

MILK-STEAMING & LATTE ART

Almost every barista wants to draw something pretty to impress the one who will be drinking his coffee. Learn to paint with milk, from basic steaming techniques to advance pouring skills. The lessons are adjusted to your experience and learning goal.

HAND-BREWED COFFEE

Learn to drink and brew coffee like a true connoisseur. Hand brewing is the cheapest and healthiest way of making and appreciating coffee in its most original form. It may look simple, but every single detail can change what's in the cup, learn how to observe and control them to find your perfect cup of coffee.

LESSON RATES (4 Hours)

Rm 600 for One-on-one lessons

Rm 1080 for Two Students

Rm 1530 for Three Students

Rm 1920 for Four Students (Max)

RAVEN KWOK

Co-founder of Earthlings Coffee Workshop, was raised in Auckland, and grew up living in a few different cities. He is a Psychology graduate at Monash Melbourne, but has seven years of experience in the coffee industry. Raven has been teaching since 2015, but has never stopped learning about coffee.

He had travelled extensively to Germany, Japan, Taiwan, Thailand, Singapore, and Hong Kong to gain his coffee qualifications from different institutions and learn from different coffee professionals. Despite all the certificates, his most valuable experience still comes from his hands-on experience in coffee-making, cafe management, design and effective communications. Not to mention his continual visits to coffee farms in different parts of the world.

You will be sure to learn more than just making coffee in his private lessons!
